BESPOKE TRANSPORT AND LOGISTICS SOLUTIONS

Bridgewater Logistics is a privately-owned transport and logistics specialist that provides a bespoke solution to suit the unique requirements of its diverse client base. This key differentiator is based upon decades of experience enshrined within the group that allows us to design and deliver a thorough solution that meets all of your global logistics, transportation and warehousing requirements.

Our combined in-house skills and experience encompasses the entire transport and logistics value chain, complemented by an intricate understanding of transport networks and resources. The depth of expertise of our in-house experts is mirrored by Bridgewater Logistics' ability to offer comprehensive on-line vehicle tracking and fleet management services, as well as warehousing and POD by e-mail.

This service offering is augmented by long-standing partnerships with reputable sub-contractors, and seasoned drivers of our large fleet of vehicles, ranging from one ton (t) to 30 t trucks that carry all types of freight, including catering to the cold-chain.

The fact that we are one of the busiest transport operators in the country talks to our ongoing dedication to providing real quality transport and logistics solutions that are built upon safety, integrity, customer service and market-related pricing.

OUR TRANSPORT AND LOGISTICS SERVICES

Our comprehensive transport and logistics offering throughout the Southern African Development Community encompasses:

- the provision of drawing agents at airports;
- on-line vehicle tracking with SMS notification;
- direct drives;
- dedicated loads;
- instant POD by e-mail;
- prompt pick-up;
- fleet management; and
- white-glove services.

WAREHOUSE AND DISTRIBUTION SERVICES

Our extensive warehouse and distribution services comprise:

- undercover warehousing;
- forklift, as well as hand packs, or unloads;
- warehouse management;
- inventory control and reporting;
- bulk warehousing;
- pallet storage and control;
- container packing, or unpacking;
- high-volume cages; and
- receiving and dispatching of goods.

WHY OUTSOURCE YOUR TRANSPORT, LOGISTICS & WAREHOUSING NEEDS?

Outsourcing your transport, logistics and warehousing requirements to a seasoned service provider allows you to:

- mitigate the need for lengthy leases;
- alleviates the need for reliable and experienced labour;
- lower costs associated with warehousing and transport; and
- access cost-effective specialised tools.
